# STEP 2 Tell us about your family.

Who do you need to include on this application?

Complete the Step 2 pages for every person in your family and household, even if the person has health coverage already. The information in this application helps us make sure everyone gets the best coverage they can. The amount of help or type of program you qualify for is based on the number of people in your family and their incomes. If you don't include someone, even if they already have health coverage, your eligibility could be affected.

For adults who need coverage:

Include these people even if they aren't applying for health coverage themselves:

- Any spouse
- Any son or daughter under age 21 they live with, including stepchildren
- Any other person on the same federal income tax return (Including any children over age 21 that are claimed on a parent's tax return). You don't need to file taxes to get health coverage.

For children under age 21 who need coverage:

Include these people even if they aren't applying for health coverage themselves:

- Any parent (or stepparent) they live with
- · Any sibling they live with
- Any son or daughter they live with, including stepchildren
- Any other person on the same federal income tax return. You don't need to file taxes to get health coverage.

The amount of assistance or type of program you qualify for depends on the number of people in your family and their incomes. This information helps us make sure everyone gets the best coverage they can.

Complete Step 2 for each person in your family. Start with yourself, then add other adults and children. If you have more than 2 people in your family, you'll need to make a copy of the pages and attach them. You don't need to provide immigration status or a Social Security Number (SSN) for family members who don't need health coverage. We'll keep all the information you provide private and secure as required by law. We'll use personal information only to check if you're eligible for health coverage.

To be eligible for coverage, parents requesting health care coverage for themselves must provide proof that the children have creditable coverage, even if not applying for the children. Credible coverage is health insurance coverage under any of the following: a group health plan; individual health insurance; student health insurance; Medicare; Medicaid; CHAMPUS and TRICARE; The Federal Employees Health Benefits Program; Indian Health Service; The Peace Corps; Public Health Plan (any plan established or maintained by a State, the U.S. government, or a foreign country); Children's Health Insurance Program (CHIP); or, a state health insurance high risk pool.
